120 responses

The process of preparing lesson plans helped me become more confident and organised in planning teaching.

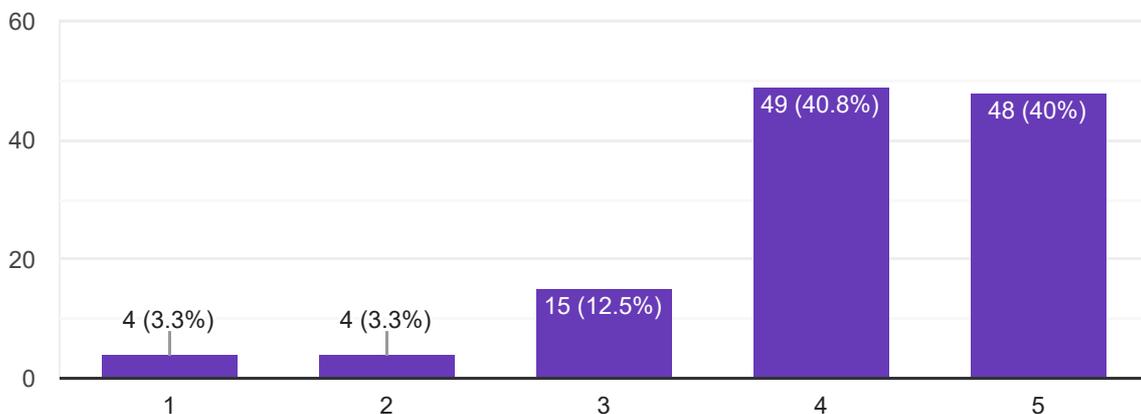

120 responses

The educational internship (school-based experience) enhanced my understanding of real classroom dynamics.

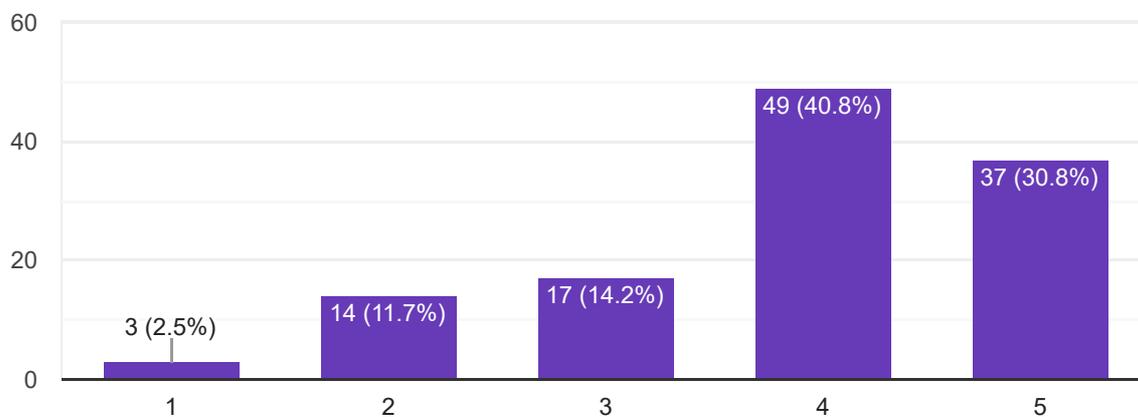

120 responses

Overall, I am satisfied with the quality of education and support services provided.

120 responses

### What do you appreciate most about your learning experience at this institution?

120 responses

.

-

Nothing

.

Nil

Good

Teacgers are very supportive not only in terms of education but also if

Learning environment

Educational internship

Teachers are good. Very very supportive and understanding.

All things are good

It is Good

Teaching and learning process

Library

Some teachers pays attention to each and every student. Few of them are really friendly and are quick to solve quires at any time.

What I appreciate most about my learning experience at this institution is the supportive environment, dedicated faculty, and oppourtunities for growth.

The support of the teachers and the oppourtunity to participate in various events in and out of college.

Supportive faculty members helps in learning

no

....

Internship and inspiring and motivational Talks

Good rapport between students and teachers

Internship and peer teaching

B.Ed made me more confident and hardworking.

We are sent for internships so it gives us experience

..

The efforts teachers are taking to improve their teaching methods, helping students to gain knowledge effectively.

Installation of smart board

Good

I appreciate the friendly teachers, good learning environment, and the support I get to improve my skills.

The learning environment at this institution fosters a deep appreciation for the opportunity to engage with challenging coursework and projects that demand attention and foster a constant learning process.

I would appreciate how the institution manage taking competitions and simultaneously they also manage studies. This experience will surely help us in our profession.

Internships

WHILE GOING TO INTERSHIP WE HAD LEARN HOW TO MANAGE THE STUDENTS

.....

Learning through co curricular activities

Learning process is appreciable

Teachers are more supportive.

Teachers are very helpful

Teaching methods

Good learning environment and supportive teachers

Everything is good.

School internship and practicals

I had best experience in this college where each and every students get chance to express themselves and showcase their talents.

Everything

Institution provides various workshop,internship to enhance our knowledge, understanding and build confidence.

To build confidence of speaking in front of everyone

...

Teachers are too supportive

I have the confidence to face all sort of situations now

I will appreciate that throughout learning it encourages participation that makes learning more effective

Supportive and engaged learning environment

The experience of teachers, while teaching.

Internship program

Cooperative faculty

Teachers friendly and supportive nature

Mathematics department

K

Teacher's efforts, support and opportunities they give to to us.

Nothing

Friendly behaviour of the Teachers

The bond created with me and my classmates and a few lecturers

Lesson plans really help

It's was very good

It's engaging activities (classroom as well as other outside activities) which make the learning process enjoyable.

Along with the studies this Institute also promotes Co-curricular activities and helps students in their respective fields .

Gained Confidence, Learnt teaching learning practices, etc.

Holistic development of trainee

Access to Library

Teaching Content with technology

Laboratories

Supportive teachers.

None.

,

Gained knowledge and confidence also teaching staff are quite understanding.

Becoming a beautiful teacher under beautiful teachers

It made me more confident as a person.

ISA where the Student have to teach her/ his peers, doing ppt etc

"I appreciate the supportive and engaging learning environment the institution fosters. The faculty are not only knowledgeable but also genuinely invested in student success, encouraging both academic and personal growth.

....

...

---

Great teaching and non teaching staff

The confidence it has instilled in me.

All these experiences are building my overall personality

We have the best teaching staff

Various programs are organised for the students to boost their confidence..

The internships

Knowledge and information i have gain about various subjects

College faculty

Smart board lesson

Teachers are very supportive not only in terms of studies but also if we need any other help.

The internship program

What suggestions would you offer to improve the overall learning environment?

120 responses

.

Nothing

-

No

No suggestions

Nothing

No suggestion

..

.

....

No suggestions

...

No

No suggestions.

Co curriculum or functions had to be organise properly with more engagement.

There are no enough number of some reference books and also they don't allow to issue more than 2 books on 1 card so number of books being issued on 1 card should be increased.

There must be some changes needed.

More scholarship

No such,

In library subject related books are shorted so, my request is subject related books more copy carry .

..

Make the workload of Fo year students little less. So that final year students can study well for GUART exam.

no

Improve the teaching learning process

Events should be avoided during ISA time, when they are of minor importance.

Nothing change lesson plans .

....

Satisfied

No suggestions as such.

Self assessment should be mentioned where students get to answer mock test and analyse our own outcome

The overall learning experience is very nice

Improving the classroom and making them more clean specially the classrooms which are nearby library.

I hope everyone would be cooperative and friendly despite different departments in the future also.

Noise in the corridor should be less

NA

K

Overall learning environment is good

Don't let staff differences be brought out on students.... Proper distribution of lectures is required... for better understanding of the concepts and also for attendance.... Proper process of exchange of classes needs to be done... the course is integrated but the staff is disintegrated.... Instead of being suspicious about students, professors should focus on helping them.... Proper handling of issues should be done. We are not an educational college... we are a multidisciplinary college and importance needs to be given to all papers and subjects

Students living at pg need rest doing all the things...they get fed-up

Transparent processes in all fields. Basic facilities should be all time accessible.

Laboratories should be improved with good and enough apparatus, Rest all is good

Lab facilities, student should be guided for entrance etc

Teachers Should use teaching aid

N.A

Students to be equally treated, students helpful and kind nature not to be exploited and kindly see in project work if everyone are doing their work in actuality or most of it is done by one, and if the student say that she/he has done more than fair share of work, then please check and see what they are saying, not just dismiss them saying you should do this work and keep giving more. Making students feel harassed.

I am suggesting this respectively that... Try to understand the students first rather than blaming without knowing the truth.

Should improve

1. "Teachers could use more real-life examples to help us understand how subjects connect to everyday life."

2. "Adding more group discussions can help students share ideas and learn from each other."

...

---

If we could have good amount of air supply

I think classroom allotments could be improved slightly, as classes sometimes clash.

The stationary resource timings in college should be extended to better accommodate student needs.

Additionally, lunch timings should be properly allocated, potentially divided into two categories: FY-TY and SY-FoY.

If possible kindly install one water filter in the upper section

Education department should inform us (about anything important.. specially about internships) well in advance and give advance guidance.. it is a little difficult to get schools for

internship later

Infrastructure,water availability

Library don't have enough books and they don't allow to issue more than 2 books from the library.

No, the overall learning environment was good.

Provide notes to students and plz tell teacher to cover all portion

Need of hostels or need of bus facility on Saturdays, there was no availability of busses during exam time , that was the timw we were in need of most!!
